Sectie Wetenschappelijk Onderzoek

Metabolism in epilepsy: diets and microbiome

Thursday 30 March 2023

Academic Medical Center Amsterdam
Meibergdreef 9, Fonteinzaal, room G.0-209

Program

- 9.00 **Registration**
- 9.30 Welcome
- 9.45 EpilepsieNL projects
- 10.30 Outpatient initiation of the ketogenic diet in children with pharmaco-resistant epilepsy: an effectiveness, safety and economic perspective
R. Neuteboom and E.J.T.M. van der Louw, Erasmus University Medical Center, Rotterdam
- 11.00 **Coffee break**
- 11.30 A pilot trial with modified Atkins' diet in adult patients with refractory epilepsy
E. Carrette, Ghent University Hospital, Ghent
- 12.00 Data blitz
- 13.00 **Lunch/poster session**
- 13.45 Can epilepsy be treated by antibiotics?
H.M.H. Braakman, Radboudumc, Nijmegen
- 14.15 The role of the gut microbiota on the beneficial effects of ketogenic diets
M. Nieuwdorp, Amsterdam UMC, Amsterdam
- 14.45 **Coffee break**
- 15.15 The metabolic basis of epilepsy
J.M. Rho, University of California, USA
- 16.15 Young investigator research awards
- 16.30 **Closure & drinks**

EpilepsieNL

Registration (free) before 31 January via e.a.vanvliet@uva.nl
